

Community-University Collaboration Roadmap

Doing More In Partnership

Would it work? Applicability

Define Research Questions

- Choose methods
- Identify roles
- Anticipate issues

Determine

- Priorities
- Needs
- Goals and targets
- Outcomes
- Relevance

1

Do we have what it takes? Feasibility

Discuss Hard and Soft Resources

- Financial and in-kind contributions
- Physical infrastructure available for use
- Data sets
- Time and skills of people available
- Interest and opportunity

Expect
To discuss your
commitment to work
together

- Intellectual fit
- Shared vision

2

Making it happen Use and Feedback

Make recommendations for implementation

Provide feedback
process into new
projects

Expect
To have final results,
interpretation and
analysis, including
potential impact

5

How is it going? Sustainability

Provide continual
feedback of research results, resolving
issues as they arise

3

Expect
The possible re-evaluation
of priorities and objectives
due to unexpected barriers
or resource needs. New
resources and partners may
be introduced

How do we share this? Transferability

Partners negotiate how
best to share results

- Academic community
- Policy makers
- Community leaders
- Students
- Community partners
- Service providers

Expect

A substantial amount of work
to be completed

4
